

More to *explore*

tailor-made and
locally sourced
experiences for groups

More to *explore*

More to Explore Sàrl-S offers corporate teams, companies and associations the opportunity to take part in unique, tailor-made activities and local experiences designed to discover the hidden treasures of Luxembourg and the Greater Region while **supporting local businesses, artists and organisations.**

We specialise in experiences that foster a sense of belonging and build team spirit - working with you to create meaningful and memorable moments for your team.

Hand-picked experiences:

Team-Building Experiences:

Short Activities & Workshops

Outdoor adventures, creative workshops, cultural challenges and culinary experiences designed to build trust, collaboration and lasting memories.

Immersive Discoveries:

Half-Day, Full-Day, or Overnight Experiences

These packages are designed to plunge your team into the hidden gems of Luxembourg and the Greater Region. We combine outdoor activities, local tastings, and/or cultural discoveries, creating uniquely local, tailor-made experiences for your team.

Here are a few ways we turn ideas into experiences:

- Embark on a medieval treasure hunt in Vianden, followed by a private dinner at the castle.
- Join a hands-on workshop at FerroForum in Esch/Alzette, paired with a visit to the iconic Belval blast furnaces.
- Enjoy a guided kayak tour, completed with a locally-sourced picnic on the shore.

Each experience is curated with care, offering your team the chance to connect, discover, and create lasting memories together.

Why work with us?

- **Curated & hand-picked:** Each activity is carefully selected and designed in collaboration with trusted local partners.
- **Flexible & Customisable:** Our packages are tailored to your company's culture, group size, goals, and budget.
- **Local & collaborative:** We work with businesses, artists and organisations to create unique and locally sourced moments for your team.

The story behind More to Explore:

After almost a decade abroad, moving back to Luxembourg has made me realise how difficult it can be to make new connections in a place that is, paradoxically, as international as it is close-knit.

Luxembourg and the Greater Region is rich in culture, history and curiosities, yet many opportunities to discover and engage with its communities remain untapped. With a background in tourism, project management and event planning, I wanted to create something that would make it easier for people to connect, discover the Greater Region in new ways and feel part of its surroundings.

That's why I founded **More to Explore** - to bring people and places together.

Whether you want to strengthen your team spirit, welcome new colleagues or simply enjoy time together in an original and meaningful way, More to Explore is here for you.

Get in touch to bring your next group experience to life.
