ABOUT

Discover the hidden treasures of Luxembourg and the Greater Region

More to Explore offers corporate teams, associations and private groups the opportunity to book tailor-made activity packages that foster team spirit, while showcasing hidden treasures of Luxembourg and the Greater Region.

By working closely with local businesses, artists, and organisations, we ensure that your team not only enjoys time together, but also actively supports local communities and gets to experience Luxembourg in an immersive way.

Bespoke activity packages for your team

Team-Building Experiences:

Short Activities & Workshops

Outdoor adventures, creative workshops, cultural challenges and culinary experiences designed to build trust, collaboration and lasting memories.

Immersive Discoveries:

Half-Day, Full-Day, or Overnight Experiences

These packages are designed to plunge your team, association or group of friends into new environments. By combining outdoor activities, tastings, and/or cultural discoveries, we create uniquely local, tailor-made experiences, designed to your needs.

Here are a few ways we turn hand-picked activities into experiences:

- Embark on a medieval treasure hunt in Vianden and challenge your colleagues to a (friendly) sword fight.
- Take part in a hands-on workshop in a reclaimed steel factory and immerse yourself in Luxembourg's industrial heritage.
- Enjoy a guided kayak tour, paired with a locally sourced picnic on the shore.

Valerie's activities are a fantastic way to experience Luxembourg. It was a fun, educational, and social outing. I highly recommend her planning for anyone looking to enjoy and get to know Luxembourg better.

Dursun Halimova, private group

We had a fantastic experience with More to Explore during our company outing. The day was perfectly organised, with no idle moments and warm, efficient guidance throughout. We'd definitely do it again!

With a background in tourism and event planning, I've seen how shared moments can strengthen relationships, support wellbeing and build trust. This inspired me to found *More to Explore*: A way for people to discover what's around them while connecting with colleagues or friends and fostering team spirit.
